- c. Any aggrieved person or Township officer affected by an action of the administrative officer may take an appeal to the Board by filing a notice of appeal and fee of ten (\$10.00) dollars with the Board and the officer from whom an appeal is taken. All appeals and applications made to the Board shall be in writing, on forms prescribed and made available by the Board. Each appeal or application shall set forth the full circumstances of the case referring to the specific provision

resolution that is involved, and shall exactly set forth whether the interpretation that is claimed, or the details of the variances applied for and the grounds relied upon of all pertinent facts to the use or authorization for which the zoning certificate is sought, as the case may be. A copy of each appeal or application shall be sent to the Commission by the Board at least ten (10) days before the public hearing on said appeal or application and the Commission shall be considered a party in interest with respect to any such hearing before the Board. All appeals shall be taken within twenty (20) days after the decision of the administrative officer, and such officer shall transmit all the papers constituting the record to the Board. The Board shall fix a reasonable time for the hearing of the appeal or application for a conditional zoning certificate and give at least ten (10) days written notice to the parties in interest. The Board shall also give notice by the publication in at least one newspaper having general circulation in the County at least ten (10) days before the date of the hearing. The Board shall render a decision within thirty (30) days. A party may appear in person or be represented by an attorney. The Board may impose any conditions that may be deemed necessary to accomplish the purpose of this Resolution in granting any variance or certificate. The Board may

condition the issuance of any certificate by requiring that it shall be periodically renewed; or the Board grant a temporary certificate. Any such renewal or extension of a certificate shall be subject to the same procedure as specified herein for the original grant of the certificate.

- f. Whenever a variance or certificate is granted by the Board, such variance or certificate shall automatically lapse after the expiration of one (1) year after the effective date of such variance or certificate if no substantial construction has taken place in accordance with the plans for which such variance or certificate was granted unless an extension shall be granted by the Board because of unforeseen conditions at the time of the granting of such certificate or variance.
