

# Chesterland Historical Village

The village, once part of the Walter White Circle W Farm, took on its own identity June 11, 1973 with the incorporation of the Foundation. Restoration began in 1975 on the 1847 Scotland School, the first building in the village. It has been our mission to create and maintain a historical park representing the rich history of Chester Township....."preserving yesterday for tomorrow." Our success is contributed to members and friends who tirelessly give of their time and talents enabling us to grow, thrive and share this unique property....

.....**Chesterland Historical Village.**

We hope you will support the programs, events and projects of the Foundation. Your membership is welcome and appreciated. Thank you !
